Report of Independent Auditors

Board of Directors
New Mexico Educational Retirement Board
Mr. Brian Colón, Esq.
New Mexico State Auditor

We have audited the accompanying schedule of employer allocations of New Mexico Educational Retirement Board (“NMERB”), a fiduciary fund of the State of New Mexico, as of June 30, 2019, and the related notes. We have also audited the totals for all employers of the columns titled net pension liability as of June 30, 2019, deferred outflows of resources, deferred inflows of resources, and pension expense (income) as of and for the year ended June 30, 2019, included in the accompanying schedule of pension amounts by employer (“specified column totals”), and the related notes.

Management’s Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules and specified column totals in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether these schedules and specified column totals are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of these schedules and specified column totals, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations of NMERB as of June 30, 2019 and the totals for all NMERB employers of the columns titled net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense (income) as of and for the year ended June 30, 2019, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Financial Statements

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the NMERB as of and for the year ended June 30, 2019, and our report thereon dated November 22, 2019 expressed an unmodified opinion on those financial statements.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the schedules. The schedule of deferred pension amortization by employer, and net pension liability sensitivity by employer (collectively, the supplementary information) are presented for purposes of additional analysis and are not a required part of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the schedules. Such information has been subjected to the auditing procedures applied in the audit of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the schedules or to the schedules themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 12, 2020 on our consideration of NMERB's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering NMERB's internal control over financial reporting and compliance.

Restriction on Use

Our report is intended solely for the information and use of NMERB management, members of the Board of NMERB, the State of New Mexico Legislature, and NMERB's participating employers and their auditors, and is not intended to be and should not be used by anyone other than these specified parties.

STATE OF NEW MEXICO EDUCATIONAL RETIREMENT BOARD

NOTES TO THE SCHEDULES

Note 1 General Description of the Board and Retirement Plan

Background – The New Mexico Legislature enacted the Educational Retirement Act (ERA) in 1957, establishing the New Mexico Educational Retirement Board (NMERB) to administer the Educational Employees Retirement Plan (the Plan). The Plan is a cost-sharing, multiple-employer pension plan established to provide retirement and disability benefits for certified teachers and other employees of the state’s public schools, institutions of higher learning, and state agencies providing educational programs. Additional tenets of the ERA can be found in Section 22-11-1 through 22-11-55, NMSA 1978, as amended.

Reporting Entity – The Plan, administered by NMERB, is a pension trust fund of the State of New Mexico. The ERA assigns the authority to establish and amend benefit provisions to a seven-member Board of Trustees (Board); the state legislature has the authority to set or amend contribution rates and other terms of the Plan. NMERB is self-funded through investment income and educational employer contributions. The Plan does not receive General Fund Appropriations from the State of New Mexico.

The ERA defines the governing Board of Trustees for NMERB per Section 22-11-3 NMSA, 1978 as follows:

- The Secretary of Public Education, or a designee of the secretary who is a resident of New Mexico, is a current employee of the Public Education Department, and possesses experience relevant to the financial or fiduciary aspects of pension or investment fund management;
- The State Treasurer, or a designee of the Treasurer who is a resident of New Mexico, is a current employee of the State Treasurer’s Office, and possesses experience relevant to the financial or fiduciary aspects of pension or investment fund management;
- One member to be elected for a term of four years by the members of the New Mexico Association of Educational Retirees;
- One member to be elected for a term of four years by the members of the National Education Association of New Mexico;
- One member to be elected for a term of four years by the New Mexico members of the American Association of University Professors; and
- Two members to be appointed by the Governor for terms of four years each; each member appointed shall have a background in investments, finance, or pension fund administration.

Pension Benefit – A member’s retirement benefit is determined by a formula, which includes three component parts: 1) the member’s final average salary (FAS), 2) the number of years of service credit, and 3) a multiplier, which for those who began employment prior to July 1, 2019, is 0.0235. The multiplier is variable for those who began work after July 1, 2019. The FAS is the average of the member’s salaries for the last five years of service or any other consecutive five-year period, whichever is greater.

NOTES TO THE SCHEDULES

Note 1 General Description of the Board and Retirement Plan – Continued

Summary of Retirement Eligibility – For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- The member's age and earned service credit add up to the sum of 75 or more,
- The member is at least 65 years of age and has five or more years of earned service credit, or
- The member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009, changed the eligibility requirements for new members first employed on or after July 1, 2010 and before July 1, 2013. The eligibility for a member who either becomes a new member on or after July 1, 2010 and before July 1, 2013, or at any time prior to July 1, 2010 was refunded all member contributions and then became re-employed after July 1, 2010 is as follows:

- The member's age and earned service credit add up to the sum of 80 or more,
- The member is at least 67 years of age and has five or more years of earned service credit, or
- The member has service credit totaling 30 years or more.

Section 2-11-23.2, NMSA 1978, added eligibility requirements for new members who were first employed on or after July 1, 2013, or who were employed before July 1, 2013 but terminated employment and subsequently withdrew all contributions, and returned to work for an NMERB employer on or after July 1, 2013. These members must meet one of the following requirements:

- The member's minimum age is 55, and has earned 30 or more years of service credit. Those who retire earlier than age 55, but with 30 years of earned service credit will have a reduction in benefits to the actuarial equivalent of retiring at age 55,
- The member's minimum age and earned service credit add up to the sum of 80 or more. Those who retire under the age of 65, and who have fewer than 30 years of earned service credit will receive reduced retirement benefits,
- The member's age is 67, and has earned five or more years of service credit.

Section 2-11-23.3, NMSA 1978, added eligibility requirements for new members who were first employed on or after July 1, 2019, or who were employed before July 1, 2019, terminated employment, and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2019. A member in this tier must meet one of the following requirements:

- The member's minimum age must be 58, and the member has earned 30 or more years of service credit. (A member who retires earlier than age 58, receives a reduction in benefits equal to the actuarial equivalent of retiring at age 58.)

**STATE OF NEW MEXICO EDUCATIONAL RETIREMENT BOARD
NOTES TO THE SCHEDULES**

Note 1 General Description of the Board and Retirement Plan – Continued

- The member's minimum age and earned service credit add up to the sum of 80 or more. (Those who retire under the age of 65, and who have fewer than 30 years of earned service credit, receive reduced retirement benefits.)
- Or, the member's age is 67, and the member has earned five or more years of service credit.

Forms of Payment – The benefit is paid as a monthly life annuity with a guarantee that, if the payments do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary. Retirees may elect payment of benefits in the form of a straight life benefit, joint 100% survivor benefit, or joint 50% survivor benefit.

Disability Benefit – An NMERB member is eligible for disability benefits if they have acquired at least ten years of earned service credit and is found totally disabled. The disability benefit is equal to 2% of the member's FAS multiplied by the number of years of total service credits. However, the disability benefit shall not be less than the smaller of (a) one-third of the member's FAS or (b) 2% of the member's FAS multiplied by total years of service credit projected to age 60.

Employer Contributions – Employer contributions to the Plan are calculated on creditable compensation for active members reported to NMERB by participating employers. Employer contributions are accrued when earned. Employers are required per Section 22-11-21, NMSA 1978, to remit contributions equal to fixed percentages of qualifying compensation. This Schedule of Employer Allocations reflects employer contributions reported for the year ended June 30, 2019.

**STATE OF NEW MEXICO EDUCATIONAL RETIREMENT BOARD
NOTES TO THE SCHEDULES**

Note 2 Basis of Accounting and Measurement Focus

The schedules are presented in accordance with the standards issued by the Governmental Accounting Standards Board (GASB). As prescribed by GASB, they are reported using the economic resources measurement focus and the accrual basis of accounting. The schedules present amounts that are elements of the financial statements of the Plan or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the plan or its participating employers. Employer contributions are recognized in the period for which the member's services were performed.

For the purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension (income)/expense, information about the fiduciary net position of the NMERB and additions to and deductions from NMERB's fiduciary net position have been determined on the same basis as they were reported by NMERB. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The preparation of the schedules in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures for the reporting period. Actual results could differ from those estimates.

Note 3 Collective Net Pension Liability

The collective net pension liability as of June 30, 2019 was based on an actuarial valuation of the total pension liability performed as of June 30, 2018, rolled forward to June 30, 2019. The components of the net pension liability as of June 30, 2019 and covered payroll for the year then ended are presented below:

Total pension liability	\$ 21,121,993,605
Plan fiduciary net position	<u>(13,544,691,114)</u>
Net pension liability	<u>\$ 7,577,302,491</u>

Plan fiduciary net position as a percent of total pension liability	64.13 %
---	---------

Covered employee payroll	\$ 2,797,685,921
--------------------------	------------------

Net pension liability as a percentage of covered employee payroll	270.84 %
---	----------

**STATE OF NEW MEXICO EDUCATIONAL RETIREMENT BOARD
NOTES TO THE SCHEDULES**

Note 4 Actuarial Assumptions and Methods

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll
Remaining Amortization Period	Amortized over a closed 30-year period from June 30, 2012, ending June 30, 2042
Asset Valuation Method	5-year smoothed market
Inflation	2.50%
Salary Increases	Composed of 2.50% inflation, plus 0.75% productivity increase rate, plus step-rate promotional increases for less than 10 years of service
Investment Rate of Return	7.25%
Retirement Age	Experience-based table of rates based on age and service. Adopted by NMERB on April 21, 2017 in conjunction with the six-year experience study for the period ended June 30, 2016.
Mortality	Healthy Males – RP-2000 Combined Mortality Table with white collar adjustments, generational mortality improvements with Scale BB from the table's base year of 2000. Healthy Females – GRS Southwest Region Teacher Mortality Table, set back one year, generational mortality improvements in accordance with scale BB from the table's base year of 2012.
Other Information	House Bill 360 enacted several changes effective July 1, 2019. The changes included benefit provisions for new hires and employer contributions.

Actuarial assumptions and methods are set by the Board of Trustees (Board), based upon recommendations made by the Plan's actuary. The Board adopted new assumptions on April 21, 2017 in conjunction with the six-year actuarial experience study period ending June 30, 2016. At that time, the Board adopted a number of economic assumption changes, including a decrease in the inflation assumption from 3.00% to 2.50%. The 0.50% decrease in the inflation assumption also led to decreases in the nominal investment return assumption from 7.75% to 7.25%, the assumed annual wage inflation rate from 3.75% to 3.25%, the payroll growth assumption from 3.50% to 3.00%, and the annual assumed COLA from 2.00% to 1.90%.

Basis for Allocation – The employers' proportionate share, reported in the Schedule of Employer Allocations, is calculated using employer contributions for employers that were members of NMERB, as of June 30, 2019.

Note 4 Actuarial Assumptions and Methods – Continued

Rate of Return – The long-term expected rate of return on pension plan investments is determined annually using a building-block approach that includes the following: 1) rate of return projections are the sum of current yield plus projected changes in price (valuation, defaults, etc.); 2) application of key economic projections (inflation, real growth, dividends, etc.); and 3) structural themes (supply and demand imbalances, capital flows, etc.) developed for each major asset class.

Discount Rate – A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2019. This single discount rate was based on an expected rate of return on pension plan investments of 7.25%. Based on the stated assumptions and the projection of cash flows, the Plan’s fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2050. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2050 and the municipal bond rate was applied to all benefit payments after that date.

Sensitivity of the Net Pension Liability – The following table shows the sensitivity of the net pension liability to changes in the discount rate as of June 30, 2019. In particular, the table presents the Plan’s net pension liability if it were calculated using a discount rate one percentage point lower (6.25%) or one percentage point higher (8.25%) than the single discount rate.

Note 6 Employer Contributions

The proportionate shares for each NMERB employer were calculated on the basis of employer contributions actually remitted to NMERB for the fiscal year ended June 30, 2019. Employer contributions that are not representative of future contribution effort are adjusted in the determination of employers' proportionate shares. An example of employer contributions that are not representative of future contribution effort include those employers that closed at the end of fiscal year 2019 and are therefore excluded in the determination of employers' proportionate shares.

The following table shows which employers closed during the fiscal year ended June 30, 2019:

Employer Name	Employer Code
La Resolana Leadership Academy	02357
New Mexico Virtual Academy	16358
SAHQ Academy	02403

Another example of employer contributions that are not representative of future contribution effort are those employers who opened during fiscal year 2019 and may not have contributions for the whole year. For the purposes of developing the proportionate shares, the actual contributions for fiscal year 2019 may need to be annualized, such as those for Solare Collegiate Charter School (Employer Code 02440). No other adjustments were made to the actual contributions for fiscal year 2019.

The following table shows which employers opened during the fiscal year ended June 30, 2019:

Employer Name	Employer Code
Altura Preparatory School	02434
Albuquerque Collegiate Charter School	02435
Hozho Academy	13436
Solare Collegiate Charter School	02440

Note 7 Investments and Expected Rate of Return

NMERB is authorized to invest or reinvest the fund in accordance with the Uniform Prudent Investor Act Section 45-7-601, NMSA 1978. Key provisions per the Uniform Prudent Investor Act are summarized below:

- Set a higher standard of care and prudence for investments, above and beyond the previous standard and guiding principles of law,
- Apply to the trust as a whole, rather than individual investments,
- Require investment strategy to be based on suitable risk and reward strategies, and
- Require diversification unless the trustees reasonably determine it is not in the best interest of the fund.

Asset Allocation Policy – NMERB has adopted a strategic Asset Allocation Plan, containing weights, ranges, and benchmarks for each asset class. Over time this strategy is expected to achieve NMERB's assumed overall rate of return on Plan assets of 7.25%. Achieving the target weights is a long-term goal. In the short term, a particular asset position may represent an intermediate point in the process of attaining its target weight.

**STATE OF NEW MEXICO EDUCATIONAL RETIREMENT BOARD
NOTES TO THE SCHEDULES**

Note 7 Investments and Expected Rate of Return - Continued

Asset allocation is the greatest determinant of fund performance. The Investment Committee uses the target asset allocation plan approved by NMERB's Trustees to carry out its responsibilities in conjunction with analyses of the Fund's long-term liabilities. The latest analysis can be found at http://www.nmerb.org/asset_allocation.html. The Investment Committee and NMERB staff regularly monitor the position of the Fund relative to the target allocations, periodically rebalancing among classes to maintain prescribed relationships. The Investment Committee reviews NMERB's investment policies annually with respect to target allocation guidelines. NMERB's Investment Policy Statement is available on NMERB's website at http://www.nmerb.org/investment_policies.html.

The Board approved the policy targets on August 26, 2016. All asset classes were within policy range as of June 30, 2019. The following schedule shows the asset allocation on June 30, 2019:

Note 8 Subsequent Events

During the 2020 Legislative Session, SB111 was passed. The changes in this bill include the following:

- Removing the requirement for employers and retired ERB members to make non-refundable contributions for those retired ERB members who work 0.25 FTE or less
- Allowing certain retirees to return to work without suspending their retirement benefits
- Exempting short term substitutes from the requirements of the Educational Retirement Act
- Exempting PERA retirees who work for an ERB employer from contribution requirements if they have not suspended retirement benefits

NMERB estimates that these changes will extend the funding period by two years. The funding period is the number of years it will take to eliminate the unfunded actuarial accrued liability (UAAL). NMERB's has a goal to eliminate the (UAAL) within thirty years. As of June 30, 2019, NMERB's UAAL was \$7.9 billion and the funding period was 47 years.

In December 2019, the NMERB's investment portfolio hit an all-time high of \$13.8 billion. Subsequent to the all-time high, the World Health Organization declared the novel coronavirus outbreak a public health emergency. Following the declaration of a public health emergency, a variety of international, federal, state, and local governments have taken actions in response to the pandemic, which have ranged by jurisdiction, but are generally expected to result in a variety of negative economic consequences, the scope of which are not currently known or quantifiable. Preliminary estimates for NMERB's decline in portfolio value could be as low as \$12.1 billion in March 2020. However, NMERB's portfolio consists of 50% alternative investments, which can have up to a three-month reporting lag, so the overall impact to the NMERB fund is not yet known.

The duration and intensity of the impact of the coronavirus and resulting impact to the NMERB is unknown. Going forward the actuarial assumptions like the investment rate of return, discount rate, and other demographic assumptions used to determine the total pension liability as of June 30, 2019 might be adjusted in future reporting periods due to this impact.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Directors
New Mexico Educational Retirement Board
Mr. Brian Colón, New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the schedule of employer allocations of New Mexico Educational Retirement Board (“NMERB”), a fiduciary fund of the State of New Mexico, as of June 30, 2019, and the related notes. We have also audited the totals for all employers of the columns titled net pension liability as of June 30, 2019, and deferred outflows of resources, deferred inflows of resources, and pension expense (income) as of and for the year ended June 30, 2019, included in the accompanying schedule of pension amounts by employer (“specified column totals”), and the related notes and have issued our report thereon dated June 12, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the schedules, we considered NMERB’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the schedules, but not for the purpose of expressing an opinion on the effectiveness of NMERB’s internal control. Accordingly, we do not express an opinion on the effectiveness of NMERB’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether NMERB's schedules are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
